# EXPERIENCE

## that Assuress

Our dedicated design team drives our passion for improving the human workspace experience. Brilliant designers like Tim Wallace bring in international trends. Creative Indian designers like Somnath Dutta Roy work together with our team creating and refining indigenous product offerings that are sensitive to your needs and give us the design edge.

Incorporating the latest software we are able to blur the lines between the tangible and the virtual. There is always a buzz in our Product Prototyping Department as engineers and designers test designs for ergonomics and value engineer them in our lab ensuring specifications are thoroughly tested in our lab ensuring an uncompromising quality that meets global standards.

# ENGINEER

Understanding the need

Automated production

Product testing

Managing logistics

Site installation

Our design team along with the architects and clients assimilate the project's functional and aesthetic requirements to generate a range of office furniture solutions to suit your needs.

As the project is flagged off other wheels are simultaneously set in motion like production and the logistics of transportation, delivery and installation on site

Beyond postal codes, SOS has successfully completed projects in the remotest area of India supported by diligent after-sales service. We have installed over 3 lakh workstations in 5 years.
