

Modern Trend Office Solutions Pvt. Ltd.

About Us:

*We are authorized Channel Partner of Spacewood. **Spacewood** is one of the largest manufacturer of Modular Furniture in India. Its state-of-the-art manufacturing facility is logistically well located in Nagpur. The facility is equipped with world-class European panel processing machines, metal working machines and powder coating machines.*

Modern Trend Office Solutions Pvt. Ltd. is a firm specializing in frontline office furnishing solutions that are designed to meet the functional and aesthetic demands of modern age companies. We not only offer the best in class concepts but we also engage in innovation to set the benchmarks of the industry. Whether you are seeking modular office furniture or the workstations or smart seating solutions or cabin solutions, our products speak through the dimensions of quality and finesse that are unmatched!

Modern Trend Office Solutions is based in Gurgaon in the NCR region and presently caters to the top banners of corporate world and also the interior designers, architects and project management consultant agencies in India and world.

In a short time span, we achieved the business prominence through our competitive pricing yet maintaining the highest quality.

EXPERIENCE

that Assuress

Our dedicated design team drives our passion for improving the human workspace experience. Brilliant designers like Tim Wallace bring in international trends. Creative Indian designers like Somnath Dutta Roy work together with our team creating and refining indigenous product offerings that are sensitive to your needs and give us the design edge.

Incorporating the latest software we are able to blur the lines between the tangible and the virtual. There is always a buzz in our product Prototyping Department as engineers and designers test designs for ergonomics and value engineer them in our lab ensuring specifications are thoroughly tested in our lab ensuring an uncompromising quality that meets global standards.

ENGINEER

Understanding the need

Automated production

Managing logistics

Site installation

EVOLVE

Processes

Our design team along with the architects and clients assimilates the project's functional and aesthetic requirements to generate a range of office furniture solutions to suit your needs.

As the project is flagged off other wheels are simultaneously set in motion like production and the logistics of transportation, delivery and installation on site

Beyond postal codes, SOS has successfully completed projects in the remotest area of India supported by diligent after-sales service. We have installed over 3 lakh workstations in 5 years.

ENHANCE

Slide 60

Lineo

Radio

Chair system

Full ht partition - Ascent

Meeting

Slide 60 maximizes efforts and team work in terms of design and space. It turns even the most congested spaces into cozy comfort zones. Its color, finish and alignment systematically coincide with chosen materials and layouts

- Offers choice of 60mm or sleeker 28mm return frames
- Large range of components to suit every need & design
- Die-casted chrome finish caps

STRUCTURE AND CABLE MANAGEMENT

Robust structure
Anodised and powder coated aluminium frame
Excellent wire management with raceway at multiple levels.

SLIDE SIXTY
workspace perfected

SlideSixty is every space-designer's dream, offering everything that modern workspaces need with a combination of modularity, functionality and aesthetics.

- ❑ SlideSixty is offered with choice of 60mm or sleeker 28mm return frames
- ❑ Slide-on tiles to ensure perfect alignment

think outside the cubicle...

The way we work has changed and will keep changing

- ❑ A New Generation System designed by London based international designer Tim Wallace, ANND® is remarkably scalable and addresses the challenges posed by different work styles in modern workspaces. A fusion of workstation types, ANND® truly lets you break out of the cubicle.

think outside the cubicle...

ANND - a complete system
with a unified language

❑ A complete system with a unified language across varied configurations

think outside the cubicle...

❑ Subtly designed scallops on table tops for hassle free access to power outlets

think outside the cubicle...

❑ Strong and sturdy under structure with intelligent components

- ❑ An innovatively designed modular desking solutions, Lineo is a system that forever evolves with you, Lineo's flexibility in customization ensure that you never have to compromise on what you want.

- ❑ Lineo offers you a solution, irrespective of how complex or demanding the requirement may be.
- ❑ With myriads of configurations and a choice of colours and TM finishes, Lineo offerings cover your entire office landscape

LINEO

- ❑ In Line with the latest trend in “Desking Systems” LINEO is an innovative product that supports individual workspace and collaborative areas
- ❑ Most suited in an open-plan work environment with no distinct rooms or enclosed spaces. Offers improved communication and collaboration among workers. Reduces visual clutter and provides better ergonomics

LINEO

 **SOS** Spacewood
Office
Solutions

- ☐ Desk Based System
- ☐ Powder Coated Metal leg & Cross Member to provide robust under-structure & Aesthetic appeal with Electrical provision on below or above table top
- ☐ Wide choice of leg styles including customised legs

- ❑ Simple construction, neat sleek look.
- ❑ Larger space to work
- ❑ Variety of privacy screen types and colours
- ❑ Create the configuration that suits your design and the uniquely modular structural design of LINEO would adapt to give your imagination a strong, stable and perfect desking solution. Further choose from our wide range of under structures to add the character you wish to build

- ❑ The secret of Lineo's customisation possibilities is the innovatively designed under structure and its capability of separating, handling and managing large number of electrical and data cables, making wire management simple and trouble-free.
- ❑ LINEO provides the flexibility to choose from a wide range of legs, under structures, screens and wire management features to design an engaging workspace as desired. The system allows to create an open or a private setup by selection from these components. Available in various colors, textures and materials useful to enhance the functional and the aesthetic requirements of the environment.

The simple modularity of the LINEO structure and its capability of separating, handling and managing large number of electrical or data cables, makes functional requirements absolutely trouble-free. You can choose freely from a large array of components to create a unique composition with a distinctly differentiated flavor every time

MOTION TABLE

Seamlessly height adjustable tables

❑ Motion height adjustable tables are the perfect choice for addressing the wellness needs of people at work. Motion comes with a host of features including privacy screens and wire management.

MOTION TABLE

Seamlessly height adjustable tables

- ☐ Can be offered as a single desk or as a cluster of workstations
- ☐ Individually motorized / manually operated legs and preset options for effortless and fast usage
- ☐ UL certified I Controller system

- ❑ One touch height adjustable table top
- ❑ Motorised treadmill with speed control
- ❑ Digital display unit

- ❑ Available in choice of 1 / 2 / 3 seater units
- ❑ Choice of rectangular or circular table top

STORAGES

Technology lockers

Working

As soon as RFID Card is flashed, an un-allotted locker opens and is assigned to that RFID cardholder. When the same card is flashed again, the previously allotted locker opens and is disconnected from the current card.

Features

- Allows hot allocation of lockers based on R.F.I.D. / chip cards combined with attendance/ access card.
- Saves space as this system allows provision of lockers to approximately 50-60% of employee strength.
- Hassle free operation since there is no mechanical lock and key.
- Admin override facility for opening unclear lockers
- Can be upgraded to store employee data for other suitable purpose
